

ASBESTOS CERTIFICATION

CODE ADMINISTRATION

As required by state law, prior to the release of a Building Permit, the City of Midland must receive acceptable evidence that any asbestos has been mitigated or that there is a certified lack of asbestos within the affected renovated and/or demolished parts of the building.

Please provide the following certification prior to issuance of a permit:

Project Name: _____

Project Address (with Space or Suite #): _____

____ **YES, a copy of an Asbestos Survey has been provided.** The asbestos survey was prepared by a licensed asbestos surveyor and conducted in accordance with the Texas Asbestos Health Protection Rules (TAHPR) and the National Emissions Standards for Hazardous Air Pollutants (NESHAP) for the areas defined above being renovated and/or demolished.

____ **YES, a copy of an Asbestos Clearance Letter has been provided stating that the asbestos was removed.** The Asbestos Clearance Letter is the documentation provided by the Asbestos Remediation Company stating that the asbestos that was discovered by the Asbestos Survey had been removed.

____ **YES, a Certification from a licensed architect, engineer or asbestos consultant has been provided.** The licensed architect, engineer or asbestos consultant certifies that it is their professional opinion that the affected renovated and/or demolished parts of the building does not contain asbestos or that the asbestos containing materials will remain "in place" as per the State of Texas' requirements.

Signature: _____ Date: _____
